

WARNING Contractor to verify location, depth and alignment of all overhead and underground services. Contractor to acquire all relevant "Dial before you dig" service drawings and adhere to all clearances, easements and to notify appropriate service authorities prior to commencement of works. The location of services indicated on these drawings are indicative only and are to be confirmed on site prior to commencement of work.

Site Dimensions. Contractor to satisfy themselves of site conditions, changes in level and dimensions prior to commencement of all works. Any discrepancies to be reported to site superintendent. Figured dimensions to be taken in preference to scaled drawings.
